

OFFICEIMO · OPEN-SOURCE DOCUMENT TOOLS

Create. Convert. Make documents work.

Generate reports, organize PDFs, and extract content with open-source document tools.
Use .NET, PowerShell, the CLI, or your browser—without Microsoft Office.

[Try a sample in your browser](#)

[Walkthrough](#)

Budget scenarios / next quarter

Blue cells are assumptions. Green cells are calculated.

Scenario	Units	Unit price	Revenue	Fixed cost	Contribution
Conservative	800	85.00	68,000	68,000	42,000
Expected	1,100	85.00	93,500	93,500	42,000
Growth	1,500	85.00	127,500	127,500	42,000
Change volume, price, or fixed cost to compare a different plan.					

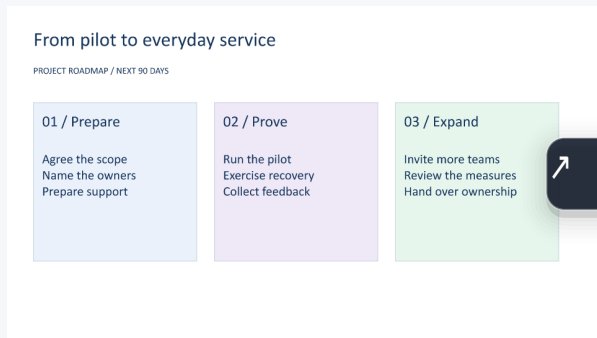

Budget scenario comparison

Compare budget scenarios in Excel with C# formulas, editable assumptions, and calculated contribution. Download the workbook, preview, and source.
