

Change approval memo

CHG-2041 · Rotate the payment gateway TLS certificates · **Ready for approval**

Decision requested: approve the certificate rotation for Saturday 02:00-04:00 UTC. Backup and rollback are already verified; only the business approval is open.

Change details

Window: Saturday 02:00-04:00 UTC, expected downtime none

Risk: Low - certificates are replaced behind the load balancer

Rollback: Restore the previous certificate bundle, about 10 minutes

Approval controls

Control	Owner	State
Backup verified	Operations	Complete
Rollback tested	Engineering	Complete
Monitoring and alert ownership	Operations	Complete
Customer notice sent	Support	Complete
Business approval	Service owner	Pending

Execution checklist

- Confirm monitoring and alert ownership.
- Apply the change during the approved window.
- Record validation results and close the change.
