Executive security summary

A first-party PDF report built with **OfficeIMO.Pdf**, shared drawing descriptors, wrapped tables, images, and generated bookmarks.

Healthy posture with no critical findings.

Operator note: long values should wrap cleanly, tables should stay inside the page, and reusable drawing primitives should remain available to Word, Excel, PowerPoint, and PDF exporters.

Signal	Evidence	Action
DMARC	Policy is enforced for the primary domain and aligned subdomains.	Monitor
TLS	Certificate chain and protocol posture are ready for automated PSWriteOffice reports.	Keep
DNS	Delegation and stale-record checks are summarized without overflowing table cells.	Review
PDF	The report is generated by the MIT licensed dependency-free OfficeIMO.Pdf engine.	Expand
